We will not be undersold!

The Ranger® 2360 is designed for maximum confidence and comfort offshore, with stealth and a respectable draft for prowling the flats. At 23' 5" the 2360 carries a 300-horsepower rating and an expertly flared bow to smooth out rough seas. The angler-designed interior boasts a clutter-free layout and clever storage with plenty of room for stand-up fishing or tending to trolling lines. Conveniences are integrated from bow to stern from the rear fold-down jump seats, large center console that can comfortably house a portable toilet to the lower, easier-to-access front casting deck. Within the hull is a massive stringer system with solid, reinforced chines and a world of our signature foam flotation that deliver that famous one-piece feel, along with our patented, stronger-than-steel pultruded fiberglass material. The Ranger 2360 truly is the bay boat, evolved.

- Exceptionally well-appointed for fishing or cruising
- Optional T-Top for versatility
- Capable nearshore hull with bay-friendly draft
- Huge built-in cooler
- Flip-down rear seats
